

The Association of Italian Heritage World Heritage currently collects 52 members between public administrations, foundations, Regions that deal with the management of properties of the Italian World Heritage. It carries out an intense activity of support to the policies of protection and enhancement of the territories and of the assets endowed with the prestigious UNESCO recognition and it is a fundamental interlocutor between Italian and international Associations and Institutions.

The activities of the Association are different and mainly focused on projects related with learning, such as the recent "World Heritage in the School", on workshops and meetings about unescan themes and initiatives to promote sites and values of World Heritage towards Institutions and Citizens.

The Association, among other things, proposes itself as a facilitator between the managing bodies of Italian World Heritage properties and private companies that want to build projects and synergies in the field of valorization, conservation and promotion of cultural heritage.

In 2018, European Year of Culture, the Association of Italian Heritage World Heritage participated in the planning of activities bringing in Italy the fourth edition of the European Meeting of World Heritage Associations, held in Noto in October, while for the 2019 proposes various activities, among which the World Heritage LAB - a project curated and promoted with the support of MiBACT thanks to the funds of Law no.77 / 2006, which is articulated along a path of updating and comparison dedicated to operators and specialists who deal with of the Italian Cultural Heritage.
